Muhammad Usman

UI/UX Designer

Address: Islamabad, Pakistan | **Phone:** 0312-0575778 | Portfolio | LinkedIn | Behance | Email

Summary

UI/UX Designer with over 3 years of experience creating user-friendly websites, mobile apps, and SaaS platforms. I turn business goals and user needs into simple, intuitive experiences through UX research, wireframing, and prototyping. I also bring **AI tools like Claude Design, Figma Make, Figma Agent, and Google Stitch** into my workflow to explore ideas, iterate faster, and refine designs while keeping users at the heart of every decision.

Experience

Teo International

UI/UX Designer | Full time

2023 – Present

Task Manager (03/2026-11/2026)

- Designed a SaaS dashboard with an integrated task management module to **help users organize, assign, and track tasks efficiently.**
- Worked on task creation, priority management, deadlines, status tracking, and team assignments.
- Focused on creating intuitive dashboard layouts and simplifying workflows to improve team productivity.

Deliverables: **30+ UI Screens · 12+ User Flows · SaaS Dashboard Design · Task Management Module · Interactive Prototypes · Developer Handoff**

Nordlys AI (09/2024-02/2026)

- Designed an end to end healthcare platform with AI assisted documentation, reducing consultation time from **20 minutes to 5 minutes** and improving doctor efficiency.
- Designed key features including patient profiles, **appointment management, medical history, and patient journals.**
- Created a **SOAP based clinical documentation** workflow to help doctors record consultations efficiently.
- **Integrated AI assisted consultation summaries** to reduce manual documentation and simplify post consultation tasks.

Deliverables: **100+ UI Screens · 30+ User Flows · UX Research · AI-Powered Products · Design System · Developer Handoff**

MV (09/2023 to 08/2024

- Designed a company management and file management platform that allows users to **create companies, organize business information, and manage documents in one place.**
- Designed intuitive upload workflows for handling **different types of files, notes, and company related information.**
- Collaborated with stakeholders and developers to understand requirements, solve UX challenges, and deliver practical design solutions.

Deliverables: **File Management System · 80+ UI Screens · 25+ User Flows · SaaS Platform Design · Developer Handoff**

SMART (03/2023 to 08/2023)

- Built a centralized platform for skill tracking and project allocation, giving Country Managers real-time visibility and **cutting manual tracking by 100%.**

Deliverables: **100+ UI Screens · 30+ User Flows · Resource Management · Billing Module · Learning Management System · Developer Handoff**

BOT Solutions

UI/UX Designer | Contract

Dec 2022 - Feb 2023

- Design **Gulf VPN** application, successfully published on the Google Play Store.
- Created user flows, wireframes, and prototypes in Figma, **increasing user engagement by 10% in the initial release.**

Deliverables: **8+ UI Screens · 5+ User Flows · Design System · Developer Handoff**

Alright Tech Private Limited

UI/UX Designer | Internship

Sep 2022 - Nov 2022

- Learned UI/UX design fundamentals while actively working on real world projects.
- Contributed to project designs by **creating wireframes, user flows, and UI screens using Figma.**
- Gained practical experience in **UX research, problem solving, prototyping, and collaborating with the design team.**

Design Skills

- UX Research
- User Flows & Journey Maps
- Information Architecture
- Onboarding & UX Writing
- Competitive Analysis
- Usability Testing
- Design System
- Stakeholder Collaboration
- AI Product Design
- Data Visualization
- Responsive Web & Mobile Design
- Complex Workflow Design
- User-centered Design
- B2B Saas Design
- End-to-End UX Process
- Cross-Functional Collaboration
- AI-Powered Product Design
- Developer Handoff

Design Tools

UI/UX Design: Figma
Graphics Design: Adobe Illustrator
Web Development: HTML, CSS, JavaScript(basic), Framer
AI Tools: Claude Design, Google Stitch, Figma Agent, Figma Make, Figma Sites, Midjourney
User Guide Video Tool: Focusee

Soft Skills

- Adaptability & Flexibility
- Team Collaboration
- Problem Solving
- Time Management

Industries Experience

- Healthcare
- SaaS & Business Applications
- E-Commerce
- AI-Powered Products

Certification & Achievements

- Foundation Of User Experience (UX) Design
- Start the UX Design Process Empathize Define
- Build Wireframes and Low Fidelity Prototypes
- Principles Of UIUX
- Advanced Prototyping and Animation Mastery Course
- AI for Designer (IxDF Certification)

Education

Bachelor in Software Engineering: 2018- 2022

Language

Urdu: Native | **English:** Fluent
